4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities – classrooms, laboratory, library, sports complex, computers, etc.

ADDITIONAL INFORMATION

1. Maintenance of Class Rooms :

All the classrooms are well ventilated and provided with necessary dual desks for seating purpose. Everyday all the classrooms are kept neat and tidy. The allotted supporting staff sweeps regularly. Trash bins are provided each classroom to keep the waste material without spilling on the floor. Students are strictly instructed not to scribble any kind of slogans or markings on classroom walls.

2. RO water system:

College is providing safe drinking water to all staff and students. A separate person is engaged to look after the condition of RO purifier system regularly. He monitors the system every day. For every 15 days uses to clean the tank hoses, cartridge filters. As and when the necessity arises the cartridge filters.

3. Maintenance of Play fields and Games Equipment:

The College is located in the heart of the city. Hence there is small area of play field is available for sports and games. In it small area outdoor games are being practised players. The playfields are kept neat and clean by regular sweeping, rolling and watering with the help of support staff. The Gym equipment is over hauled and greased fortnightly. All the sports and games material is maintained in good condition.

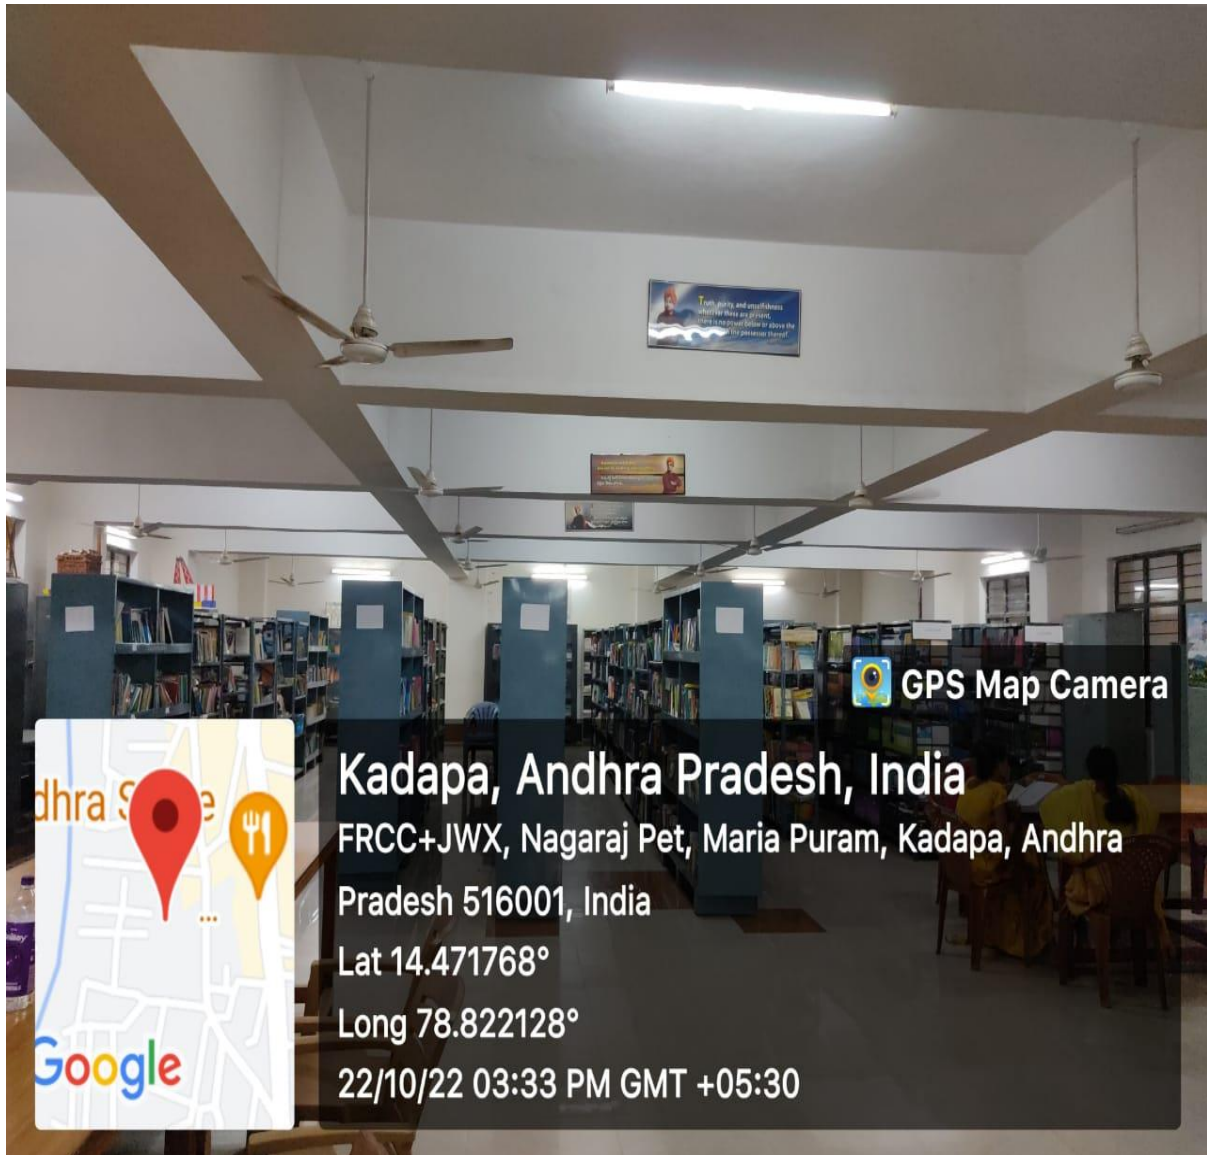

4. Maintenance of Computer Labs :

The College is consisting of 165 computers in all. All the computers are maintained with proper care and necessary service from time to time. All the students are instructed to turn off the system once you are done using it. If any repairs are needed the service men inspects the system in presence of computer staff. After careful examination the part will be replaced. If it is in warranty period it will be at free of cost.

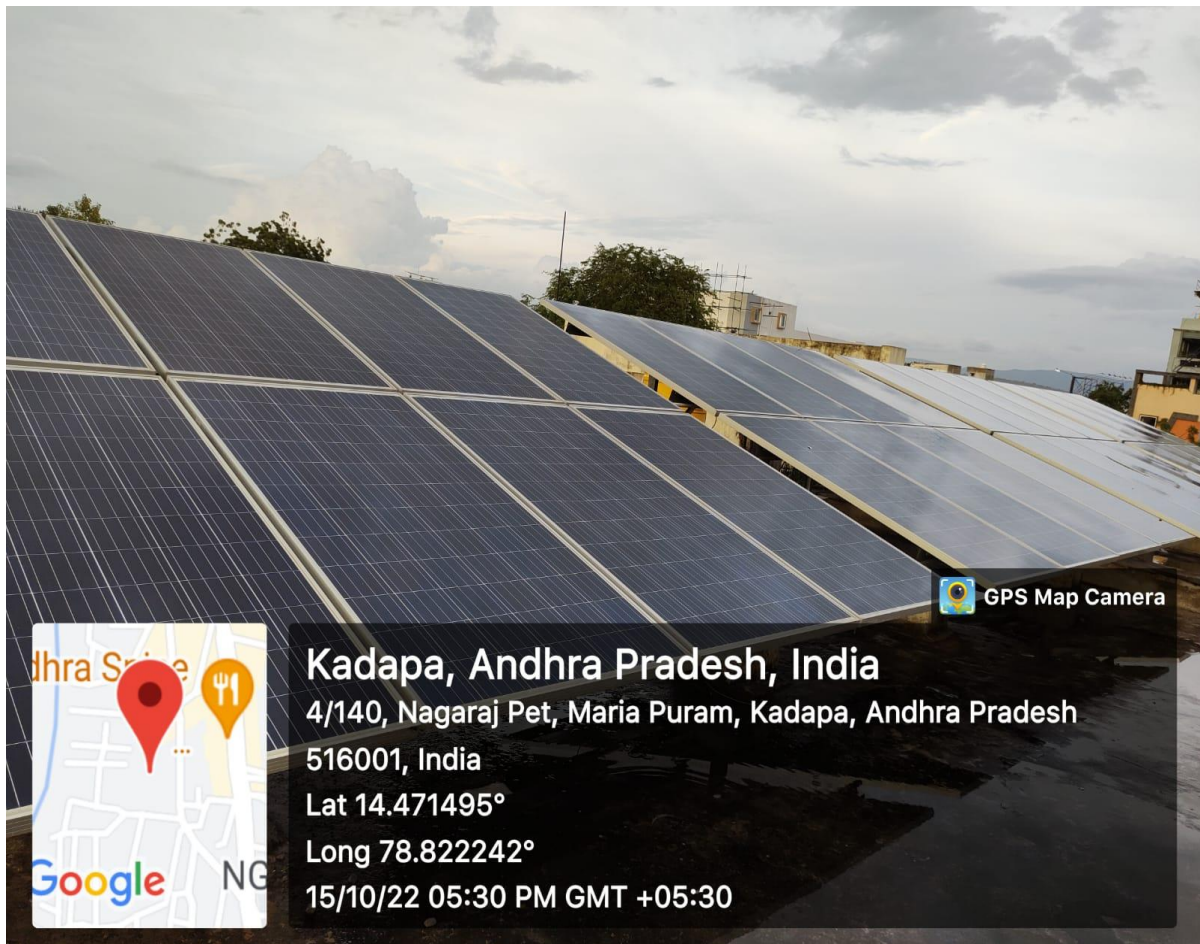

5. **Library Maintenance:**

The college has spacious library with many volumes of books. In weekends all the book shelves cleaned. If found any dirmitides / white ants proper pest control measures are taken to protect the volumes of books.

6. Solar Panels :

The College has established conventional energy resources to reduce the electricity bills. The solar panels are cleaned in every month secure and free of defects. Regular maintenance of all thermal based components is done by the College electrician. If any repairs are needed the agency which supplied will attend immediately to provide service.

7. Campus cleaning:

College is sprawled in an area of 3.5 acres in which most of the area is occupied by College buildings. The total College is surrounded by green vegetation. The total campus is eco friendly with beautiful Botanical garden. The College premises is kept clean by the supporting staff. Trash bins are arranged in campus to put the garbage and waste materials in it. Every third Saturday is maintained vehicle free day.
