First of all community service is a term form of volunteerism. The most important point here is that the community service is done within a defined community. This community can take forms.

There are many projects has been done under the community service project by the students.

This project is done at various colleges throughout Andhra Pradesh conducted by the government and officials, who are involved in this project.

“ MOTHER AND CHILD HEALTH”project helps us to protect the mother and child health from the problems arrised due illnessand ignoration of small problems.

The project was done at 4 weeks. The work was also divided into 4 parts. The work is divided by the following:

- First week –Survey
- Second week – conducting Campaign
- Third week- working with Government Agencies
- Fourth week- Report

This project was started from 16th May,2022 to 12th June,2022.

First week- Survey

From 16th May, 2022 To 22nd May 2022

In this week, I spend two days to collect information about the pregnancy and childbirths through online and conversation with elders. And also I prepared questionnaire which helped me to ask the people.

Next five days I collect the information of pregnant women's details Through Anganwadi and ANM's. After completion of collection of details I started the survey, in this Survey I met so many pregnant women's and ask the questions. Some people are very interested and some are not-interested to listen my words, but I tried my level best and succeed by explored them.

Like the mentioned above I completed my first week survey.

QUESTIONNAIRE:

- **Which type of food is most important to eat while pregnant?**

- How much sleep does a pregnant woman needs per night?
- What are injections has to take during pregnancy?

----- And so on.

Second week– Conducting Campaign

From 23rd May,2022 To 29thMay,2022

This week is dedicated to conduct the campaign by me. On this campaign I clarify their doubts and clarity about pregnancy given by me as per my knowledge.

And then I discussed about the scanning's and injection which gives health to the mother and baby. Next, Maximum weight of the pregnant mother, what are the tablets have to take and what is the maximum time for normal delivery.

These are the main parts that was discussed with the pregnant woman's in different villages.

Third week- working with Government agencies

From 30th May,2022 to 5th June

During this period, work with volunteer Anganwadi, Ashaworkers, ANM'S. In this period of time we work with Anganwadi by collecting the details of pregnant ladies and entered into a book and online. The kit for pregnant ladies was given , which was send by the government. This helps to provide them nutritious food along with the children.

Next, work with ANM'S was so proud ,it helps to know the better information. Share's the work of ANM'S, includes maternal and child health along with family planning services, health and nutrition education, giving medicines like iron and calcium tablets, and T.T injections. Checking the hemoglobin and monthly checkup's etc.,.

Fourth week-Report

From 6th June,2022 To 12th June,2022

On this fourth week, we searched to write a report.on these 7 days, I prepared a report which contains all the work done on these 4 weeks by little

shortness. And, then we prepared PPT to give presentation in front of the officials.

CONCLUSION

It was a wonderful and learning experience for me while working on this project. This project took me through the various phases of project development and gave me real insight into the world of **MOTHER AND CHILD HEALTH** .

I enjoyed each and every bit of work I had put into this project.

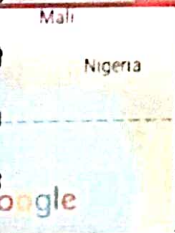

“ Without the community service, we wouldn't not have a strong quality of life. It is important to the person who serves as well as receipt. It's the way in which we ourselves grow and develop.”

ACKNOWLEDGEMENT

I would like to express my special thanks of gratitude to my physics professor

“ **Dr.M.Padmavathi Madam** “for their able guidance and support in completing my project.

I would also like to extend my gratitude to the principal Madam " **Dr.P.Subbalakshumma Madam**" and the government, who conducted this project.
