BRIEF REPORT

Department of Mathematics went field trip to Talakona and Regional Science Centre, Tirupati on 07.01.2022. Talakona waterfall is situated near Bakrapeta in Nallamala Hill range and 40 km away from Tirupati. The height of the waterfall here is 270 feet. Eswara temple is situated near the waterfalls. Talakona is the highest waterfall in Andhra Pradesh state. It is a resort well endowed with waterfalls, dense forest and wild life. The forest host certain rare and endangered species of animals. Staff and students at an uphill riverlet a stream of running water that's so as fresh and soothing. Students recreated and enjoyed a lot.

Students visited Regional Science Centre, Tirupati. The centre is called as Science temple because of its exclusive collection. The Regional science centre, Tirupati has 6 permanent exhibition galleries namely funscience, our senses, popular science, illusion and emerging technology and our universe. Mathematical concepts like parabola, Hyperbola, Conics, Rings, Ellipse, Value of Pi, Infinity well, Cubism etc. Students gain knowledge by visiting these places.
